

Gallagher Newsletter

Latest Innovation

The new Gallagher five product, 10 hose dispenser improves the customer experience and maximises forecourt space and resource.

Engineering Support

Our highly trained and experienced technical support team have direct access to our design and production engineers. This enables them to provide a depth of support that is unparalleled in the industry.

Knowledge is Power

We continue to seek new ways to empower our service partners by sharing information about new products and technologies.

Release of the Gallagher PULSE Five Product Dispenser

The one stop shop Gallagher five product model provides more fuel choice at every fueling point.

Available as a small format pressure solution, the LXAD is only 2100mm making it one of the smallest footprints available for a five product dispenser.

The modular hose compartments allow for both retractor or fixed hose options, even in the one dispenser. For example you could have a five product dispenser with 3 fixed hoses and 2 retracting.

Changes in the Technical Support Team

Daryl Osborne and Warren Dickson with the new five product PULSE.

We advise all our customers and Authorised Service Providers (ASP) that Warren Dickson, our Senior Support Engineer has resigned his position with Gallagher Fuel Systems.

Our outstanding level of Technical Support for ASP's will continue to be provided by our Technical Support Technicians.

In the first instance customers should continue to contact their preferred ASP for service and support.

Gallagher Technical Support Team

Patrick Boyle

John Jones

Our Support Technicians, Patrick and John provide phone and email support during New Zealand business hours, 8am to 5.30pm Mon- Fri.

New Zealand:
PH | 06 327 0327

Australia:
PH | 1800 469 823

Email | fuelsystems.support@gallagher.com

Alternative Knowledge Resources

We provide 24 hour access to our comprehensive website containing manuals and technical bulletins for all Gallagher Fuel Systems dispensers and Vapour Recovery.
