

To our valued customers and business partners

At Gallagher Fuel Systems the safety and welfare of our employees, subcontractors, service providers and customers is our top priority and we have adapted accordingly to ensure we keep all our people safe.

While Gallagher Fuel Systems has closed production and distribution facilities to help prevent the spread of COVID 19; we will do our best to arrange the dispatch of parts required to support emergency and or essential services. Technical Support, Sales Order Management, and Product Development will remain fully functional, albeit working remotely. That means we are staying on the job and are still here to help as best we can.

One thing that will not change, is our mission. We have adapted quickly to this new way of working and are confident that we will achieve our key goals and objectives despite this COVID 19 disruption.

We are fully supportive of our Governments efforts in trying to arrest the spread of this terrible virus through our communities and believe that the lock down will be the most effective tool in achieving the best outcome for us all.

We understand this may present some difficult decisions and actions for you, but re-assure you that our planning, designing, and ordering systems remain active. If you require communication regarding your product, our channels are fully operational.

Currently, we are to remain away from our factory until the 23rd of April. We will keep you informed of any changes made as more information comes to light. If there is one thing we have learned in the last week it is how quickly things are evolving and that we must adapt as quickly in order to protect our people, community and our business.

For all communications and queries over this period, please use your usual contact/channel:

Contract Manufacturing

Contract Manufacturing administration and support also remain fully functional working from home. This is a great opportunity for the team to fully focus on your quotes and enquiries regarding electronics and other new product developments. For all enquiries, contact;

Contract Tech Admin FSCMTA@gallagher.com

Thank you for your continued support during these most uncertain times and we look forward to seeing you all safe and well on the other side, together.

Richard Coxon, Managing Director
